Coughs, Colds, Influenza, Croup, Hoarseness, Bronchitis, Pneumonia, Diseases of the Bowels arising from Cold, Incipient Consumption, and for the relief and (if at all possible) cure of Patients in the most advanced stages of the latter disease.

This celebrated preparation, like the Bitters, may be confidently relied on. It is designed for a class of diseases more general and more latal than any other to which the people of this country are subject—those springing from a "slight cold." That eminent authority, Dr. Rell, says: "I will not say that Colds are to our inhabitants what the Plague and Yeliow Fever are to those of other countries, but, I can aver confidently that they usher in diseases of greater complicity and mortality than these latter." latter."

A furth r proof of the terrible fatality of diseases resulting from a "common cold" may be seen by a glance at the following statistics, taken from the records of the Board of Health of Philadelphia, control beginning to the state of the stat essedly one of the most healthy

Wood, for restoring hair perfectly and per-namently, has never yet had a rival. Volume after volume might be given from all parts of the world, and from the most intelligent, to prove that it is a perfect Restorative; but read the circular and you cannot doubt; read also the following: Cannot doubt; read also the following:

IFTHE HAIR.—People have for centuries been afflicted with baid heads, and the only remedy heretofore known has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great many persons still patronize them, because they have been so often imposed upor by Hair Tonics of different kinds. To all such persons we carnestly make the request that they will try once again, for in Wood's Restorative there is no such word as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completeknow of a lady who was baid, who used the article a short time, and her head is now covered completely with the finest and most beautiful curls imagin able. We know of numerous cases where hair was rapidly falting out, which it restored in greater perfection than it had ever heen before. It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing damiruff, and has proved itself the greatest energy to all the ills that hair is tself the greatest enemy to all the ills that hair is

heir to.

It is the duty of every one to improve their personal appearance though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or wonan, is an object much to be desired, and there are so means that should be left untried to obtain such consideration.-[Woman's Advocate, Phila.
